

You Are In The Right Place

"I suffered from dizziness and pain in the back of my neck and misery in the back and top of my head. I had popping in my ears and couldn't hear well. I had these symptoms on and off for 7 years. It got so bad I couldn't function. I couldn't work without losing my balance and getting dizzy. My medical doctor prescribed a variety of drugs and I consulted many specialists and endured many diagnostic tests before seeing Dr. Farabaugh. The doctors of the Farabaugh Chiropractic Office were great. I began feeling better after the 2nd week of treatment. I can now work without any problems. I have no more dizzy spells. My hearing has improved so much that others have noticed it as well."

- **Our office guarantee is:** *If we can help you we'll tell you. If we cannot help you, we'll tell you that as well and make a proper referral.*
- Dr. Farabaugh is the only DC in the entire country who was both Chairman of the Council on Chiropractic Guidelines and Practice Parameters (CCGPP) and sits on the Official Disability Guideline (ODG) Advisory Board. As a result he is a highly sought after expert in the chiropractic community.
- Established in 1982, over 32 years ago, our doctors collectively bring over 50 years of knowledge, education, and skill to the table for your benefit.
- Our office is committed to four core values:
 - A. Patient-centered (the patient comes first!)
 - B. Outcomes-driven (we strive for quick results)
 - C. Evidence-based (our decisions are based upon a solid foundation of research)
 - D. Cost-Conscious (we are very aware of cost issues and strive to keep costs down)
- According to United Healthcare, our office obtains better results in a shorter period of time, with fewer costs than most other offices! We are Tier ONE in their network.
- According to the Bureau of Worker's Compensation, even though we often don't see an injured worker for their first visit until 1539 days after their injury, we successfully return 75% of those patients to work in just 45 days!
- Our office utilizes the latest in technology, using one of the only Spinal Decompression Tables in the city of Columbus, to help patients avoid neck and LB surgery.
- We work cooperatively with area medical professionals for the good of the patients we serve. We receive consistent referrals from area medical doctors
- Our staff is amazing, friendly, responsive, and caring. Excellence in customer service remains one of our main goals.
- Your opinion matters! We want to make sure we give the best patient experience while getting you better. Please let us know anything that we can do to improve your time with us. Tell your friends the results you get here and the manner in which this office conducts itself. With all of this in mind we think you will agree **YOU ARE IN THE RIGHT PLACE.**
